7<sup>th</sup> May 2006

To whom it may concern,

**RE - Testimonial for Kyle Milnes**

I have worked with Kyle Miles as his direct manager since 31/01/2006. His role at this time is as Webmaster for Mansion (Gibraltar) Limited.

In his current role Kyle is involved in all manner of IT related developments, infrastructure and network implementations, portal and systems administration, and related support (2<sup>nd</sup> and 3<sup>rd</sup> level).

Kyle is a very mature individual for his age, both at a personal and professional level. He has a natural ability to think laterally and logically in everything he applies himself to.

Kyle is a self-motivated and largely self-managed resource who is always more than willing to assist customers and colleagues alike in order to get things done quickly and accurately. At the same time he has a very good sense of priority and self control.

I look forward to working with Kyle in the future and enjoy the successes I am sure he will assist in bringing to our business
